

Asset Description

“SCI-FI UI Components” contains rich sci-fi UI elements. With it, you can customize your project UI at will.

SCI-FI UI Components

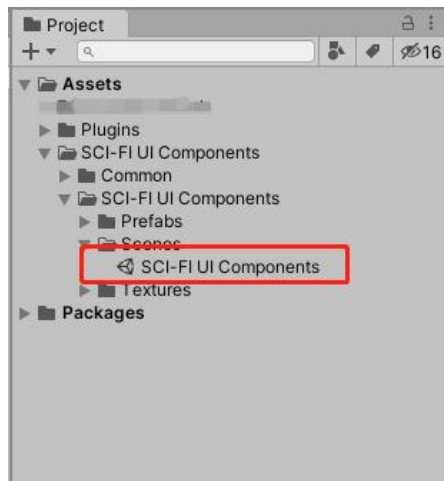

- Scene Resolution: 3840px*2160px
- Prefabs: 540 prefabs for individual elements
- Textures: 1148 png textures
- Scene: SCI-FI UI Components (26 canvas)

Use Steps:

1.Open the following folder:

Project/Assets/SCI-FI UI Components/Scenes

There is 1 demo scene here. Select the scene and double-click to open it

2.Check whether the canvas resolution is 3840 * 2160. If not, set it to this resolution to display all assets correctly

3. Double click the "play" button to start running the scene, so you can see the dynamic effect of the scene.

4. If you don't want to use the default scene directly, you can find the individual prefab you want to use in 'project / assets / SCI-FI UI Components / prefabs', and then drag it to your project scene. You can freely combine and use all the elements.
